SOUTHERN SHORES AND BEACHES

Southern style can range from a beachfront hideaway in the Carolina low country to a grand, historic plantation on the Mississippi. At each end of the spectrum, unmistakable Southern charm is clearly evident.

Throughout the Southern Shores & Beaches Palette, look for sun-washed tones that are as hospitable and accommodating on a breezy ocean side veranda as they are in a formal parlor served up with sweet tea.

The inside scoop on the exterior

Bringing color to the outside of your house can have a tremendous effect on your home's value and curb appeal.

Things to keep in mind:

- Coordinate paint colors with existing features of your home such as your roof and any brick or stone accents you may have.
- Look for colors that harmonize with your surrounding landscape and neighborhood. Or use any of our color palette collections to find combinations appropriate for the architecture of your home.
- Add splashes of color by highlighting details such as doors, shutters, and architectural elements. Keep in mind light colors can add size, while dark color can inject drama.

There are thousands of colors in the world.

It's time to embrace them.
